**To strengthen economy of
AFGHANISTAN**

ZIAYEE
— GROUP —

“

CEO Message

Over the decades world economy has faced challenges in specific phases as well as in specific countries, which led to unstable economy and challenged economic growth. Among these countries **Afghanistan** has suffered the most and tremendous economic challenges due to war for long period. War damaged the whole foundation of economy in Afghanistan. **Ziayee group of companies (ZG)** as a part of Afghan economy stepped into this economy for the sake of contribution to country's economy and level up the quality criteria to push the business in a professional framework.

As **ZG** has not been exception of dealing with challenges, our group has always succeeded to overcome the challenges. We have always looked up to the challenges as a part of our business not a part of it. **ZG** owes its success and achievements to its dedicated employees with huge spirit of hardworking and commitment. It is delightful to share with all that **ZG** is now a prestigious company not only in national but in international level and its pleasure to be a part of global economic village.

With this spirit of working and beating challenges **ZG** is committed to contribute the area and world economy. We will certainly look forward to inspire more and more people and deliver the best.

THANK YOU! A. MOMEN ZIAYEE Chairman

”

About Us

Ziayee Group of companies is a registered company in Afghanistan.

In year 2003 ZG started its performance as a legal registered company with the **license# (1601-08)** received from Ministry of Commerce and Industries of Afghanistan and Afghanistan Chamber of Commerce & Industries (**ACCI**) as well.

ZG started its carrier from Balkh province under strong leadership of **Abdul Momen Ziayee (CEO)** and **Abdul Mujeeb Ziayee (Vice president)**.

ZG started carrier with great potential and hardworking team staff to reach the goal specified by ZG vision.

ZG did limit itself in a small area, so it started to open new branches in other provinces and cities in Afghanistan. Now ZG has its branches in Hairatan, Kabul, Herat, Konduz, Nangarhar, Kandahar and Aqina border. In first step we widened our domestic branches as mentioned above. In second step we looked forward to open new branches abroad. Now, ZG has opened its branches in Kazakhstan, Turkey and Russia. We are now involved in trade market of several countries in several sectors.

Our installations are located in **Hairatan and Aqina border cities**. Our installation in Hairatan has huge capacity of oil storage as well as gas storage with updated equipment and expert staff. Our pump stations in **Mazar-e-sharif** city has huge share of supplying **fuel & gas** in this city. Our pump station in **Tashqorghon highway** and in **Andkhoy city** is also delivering best service for public.

We care best about our pump stations to deliver the best. Huge amount of Mazar city fuel & gas is supplied by ZG installations and distributed to local traders as well. Now, ZG is covering other big cities by its quality and best service. We are also active in other sectors such as **nutritive goods** import and supply, **flour** import, **dry fruit** export and so on. Now we are concentrating on international level performance and work with our global partners. **We look forward to deliver best in the best manner.**

Vision

ZG as one of the leading companies in the country encourages the spirit of hardworking and great quality in every industry. With this view **ZG** is putting its effort to spread this spirit firstly among its own employees then all over the country and globe.

Our company looks wider and different to the future of global economy. We have entered to the new era of global economy, but it shall not be our stop point. We will grow with the growth of global economy and we shall go further to share our contribution to the global economy and reach to a world class standard.

We would like to work with world class companies with world class qualities. We would like to continue our co-operation and contribution with our global partners. Certainly, we are planning to widen our sectors and work in different sectors. We will add to our branches all over the country and the world. We will welcome the new partners as well to work with. **ZG** has been working with several companies in **Turkey** since 2011 in different sectors to import goods from Turkey. **ZG** has also entered to a partnership with flour company in **Kazakhstan** and has imported big amounts of flour and other goods from Kazakhstan.

We also work on nutrition sector, as we have imported nutritive goods to Afghanistan from **Turkey, China and Norway**. With this view to our business we are launching new branches and new products for **ZG**. We will increase and spread our business in every sector. We want to use update technology in our business to make it more professional, available and convenient to all. Our general vision for **ZG** is to spread business in society in the best and standard way possible. Providing employment opportunities for young generation and using experience of experts to make **ZG** in top is our priority, for the sake of delivering best to the society.

Mission

Think with clarity and courage

Act decisively and on time

Achieve goals with confidence and

Ziayee Group company as a Fuel and Gas Supplier solutions provider, is committed to:

- Delivering customized solution
- Investing in technology and people
- Complying with applicable statutory and regulatory requirements
- Enhancing profitability
- Providing end-to-end supply chain services through an efficient global network

Core Values

Our visions and values define us as individuals and as a business. In order to assess and understand how we achieve our goals, it is important to first understand who we are as people and what our common goals and ambitions are.

These values define how we engage with our colleagues and clients and determine the decisions that we make.

Safety

We have created a behavioral culture where safety is paramount for all who work for us. Safety is the foundation of everything that we do and is our number one priority at all times.

Focus on the Customer

We have forged a stable and well regarded reputation with our clients over the years. By putting them first and responding to their needs, we pride ourselves at being able to be agile and flexible.

Be Different

We strive to identify challenges, problems and weaknesses in our industry in order to develop and provide dynamic and forward thinking smart technological solutions that others may not have the courage or conviction to attempt.

Ethical Responsibility

We are committed to leading by example, to acting ethically and responsibly and to making positive impacts within the industry and communities in which we work.

CAPABILITIES

Since **Mujeeb Ziayee** organized **ZG** in 2003, **ZG** undertook many projects, and **ZG** has been rewarded for all its projects.

With over **15 YEARS** of experience and working with clients like:

- **NATO**
- **The Afghan Government**
- **Private suppliers**

we have the knowhow to efficiently deliver project management, supply, transport, import and etc... on the most challenging infrastructure projects in **Afghanistan**.

Fuel Storage Capacity

ZG installations in different locations with best service performing its best. Our installations are located in **Hairatan** border city and **Aqina** border. These two **borders** are main route of supplying oil & gas from **Russia and Asia**. As **ZG** R&D department studied, we decided to build two installations in these two different locations. We have the total **(120,000) tons** of fuel storage capacity.

Our installation in **Hairatan** city with **(50,000) tons** of fuel storage capacity is one of the biggest and leading installation in **Afghanistan**. Our installations with huge capacity makes our every challenge and every task easy. We do not hesitate to complete any big fuel supply contract. We supply huge amount of fuel daily and we have completed many contracts with national and international companies such as **Nordic camp supply (NCS), Afghan Oil, NATO military forces** and so on. Our fuel tanks are purchased from best companies of **Europe** with world standard quality. It is also installed with world class quality by the company's experts.

Aqina border installation has **(30,000) tons** of fuel storage, mainly imported from **Turkmenistan**. Beside these two above mentioned huge installations, **ZG** also has fuel storage capacity in **Kabul, Herat, Kandahar, Nangarhar** and so on. Our Torghondi border installation has **(8,000) tons** of capacity which covers our west part of country's fuel supply needs. Our fuel is supplied by **ZG** transport all over the country which makes our service convenient to our customers.

Gas Storage Capacity

One of our main focus of trade is **gas supply**. Gas importation with the best quality according to world standards is our main goal.

ZG daily supplies thousands of tons of gas across the country. We supply **Propane, Butane** and other gases with the best quality. Our best supply owes our huge capacity of gas **storage**. It makes **ZG** able to fulfill any contract and beat any challenge.

Our gas tanks in **Kabul, Herat, Kandahar, Nangarhar, Hairatan** and **Aqina** are carrying **world standard approval**. We are holding **biggest gas storage capacity in Afghanistan**, with the total **(90,000) tons** of gas storage capacity across the country. Our **Aqina** installation has capacity of **(25,000) tons** and our **hairatan** installation has total capacity of **(40,000) tons**.

It makes **ZG** one of the leading gas supply with huge capacity of gas storage. We are looking to increase our gas storage capacity more, as we are installing new gas tanks and building rapidly new installations with world standard quality.

High Tonnage Scale

High tonnage scale is a must in oil & gas business. This is a big facility which provides accuracy and convenience to the business. Lack of high tonnage scale had created many problems in our fuel & gas supply and with our global partners as well. But, fortunately **ZG** imported and installed high tonnage scale in its installations few years back. Now, **ZG** is not only independent of high tonnage scale, but provides facility to other companies which are facing problems, due to the lack of high tonnage scale. Our **(5) high tonnage scale** is providing service daily in **Hairatan** city. This is the highest number of scale providing service in a city. Other big companies use our scale, as they sometimes lack the standard and good quality scale. In **Mazar-e-sharif** city our **(3) high tonnage scale** is serving daily. Our **(3) high tonnage scale** is installed in our **Aqina** border installation. Our high tonnage scales are able to scale **tanks and trucks** separately and simultaneously as well. Thousands of tons of fuel & gas are imported through **Aqina and Hairatan** borders daily and this is **ZG's high tonnage scale** which makes it easy to scale any big amount and accomplish any big mission.

Pump Stations

ZG has a great share in delivering oil & gas in wholesale and in pump stations as well. **ZG pump stations** are opening new branches by passing each day. We look forward to make it best and deliver what you deserve. **ZG** has twelve (12) pump stations in different locations all over the country. In **Mazar-e-Sharif** city we have seven (7) pump stations serving with the best quality. Our pump stations are cared by our special team working on pump stations.

Our equipment in pump stations are imported from **Turkey and Europe**. This is proud to say that we are leading **pump station** across the Mazar-e-Sharif city and country. Our two (2) pump stations in **Andkhoy** city one (1) in **Aqina** border is also delivering best service to the people. Our pump station in **Hairatan** has covered the city's necessity and interest towards **ZG**. We also have covered the chain highway of country. To deliver the best service in highway our new pump station has started its service on highway in **Tashqorghan** area.

One of the prominent difference of **ZG** is importing and supplying fuel directly and specially to its pump stations. We deliver **petrol (95)** in our pump stations which is rare in **Afghanistan**. We also deliver **Butane and Propane gases** according to different seasons of year. Our **Diesel** is also equivalent to the best quality and standards of the world. **ZG** in whole and especially in pump stations which is a direct contact of **ZG** with people has tried to left best impact on the sector of **oil & gas** industry.

Ziayee Group Fuel and Gas Installations
Hayratan, Balkh

Transport

ZG transportation service is one of our reliable service which makes us independent of relying on other transport companies.

It adds speed and convenience to our services. About (60) tank trucks of ZG drives the national roads in Afghanistan, supplying fuel including diesel and petrol. Fuels are directly supplied from our installations to pump stations, companies and other respective costumers all over the country. This enables us to provide best fuel in the best time with best facility.

We also help other companies to use our transportation service. Our (35) trucks also supplies gas across the country. Our gas tanks are imported from the best companies with high safety facilities. Our trucks are riding on the road with safety and best facility, equal to the world standards. Genuine trucks of genuine companies of the world such as (Mercedes, Volvo, Man etc.) is providing transport service to the different destinations such as Mazar, Kabul, Faryab, Jawzjan, Hairatan, Herat, Helmand, Kandahar, Kunduz and other international destinations as well.

ZG transportation service is now well known brand in every national and international destinations. ZG is now conquering the international roads, as ZG's (30) tank trucks are supplying fuel and gas in Turkmenistan since several years. In Herat border our 16 tank trucks are riding on the west part of the country as well.

Fuel Supply Capability

We have the experience of supplying fuel to everywhere with good quality and great amount, Such as our completed contracts with Nordic camp supply (NCS), Afghan oil, and some other fuel supply companies supplying fuel for NATO and other Military camps working in Afghanistan.

Achievements

In modern business in every industry quality comes first. We as a reliable prestigious company have always tried to reach in high level of standards and make our company equivalent to world standards. We as a team and our R&D department have always made huge efforts towards increasing our company's quality in every sector such as oil & gas, transport, oil & gas installations, export & import and so on.

ZG proudly shares his achievements with all and we feel proud to say that ZG has been awarded among top 5 tax payers of the country since 2010 till now consecutively. Government of Afghanistan has awarded ZG for best and transparent tax paying system and its contribution to the economy, society welfare and government as well. We are pleased to declare that ZG has founded modern installations for oil & gas. For the first time in the history of oil & gas industry ZG installed modern and world class machineries with high capacity. Our new installed high tonnage scale in our installations are not less than a revolution regarding standardization of oil & gas industry in Afghanistan.

Our machineries and equipment provide service not only for ZG, but other firms which lack these facilities. Considering this service ZG is known as most reliable company serving for more than 12 years. Our installations has won the best and standard oil & gas installation award all over the country. ZG has imported new vehicles from Turkey, Bulgaria, Russia, Germany and so on, to provide the top level service in transport sector. Our transportation team works 24 hours with best supply and delivery equipment and service.

Transportation of ZG is in top ranking list of the country. We supply and deliver not only goods, but your trust as well. Our pump stations are designed by the foreign designers with top materials and equipment used in our pump stations. Our pump stations now rank in top 3 pump stations of the country for its fuel & gas quality and the most convenient pump stations regarding its service providing. We have reached in standard level of pump stations by the help of our dedicated team. Best oil & gas with the less price and convenient environment is known as ZG pump stations specialty. Our pump stations are widening day by day and we are opening new branches all over the country and globe. We work to improve our quality to its top level. Our new offices are now open in Turkey, Kazakhstan, Russia etc. We are now a part of Argus team and our firm is registered and working with argues team as well. As we attend argues annual, monthly and occasional conferences and summits. We look forward to achieve more success with the spirit of hardworking, dedication, sacrifice, plan and wide vision for better tomorrow.

- Awarded as the most capable company of the year by Kazakh Oil Trading Society

HEALTH, SAFETY & ENVIRONMENT

PRESIDENT'S MESSAGE

"Safe & Sound" is about building and reinforcing a strong safety culture. Every day, more than 250 employees and contractors go to work at ZG. Our goal is to make sure that every one of them goes home safely at the end of the day. It's a goal we can reach together by always putting safety first. Safety training, providing proper tools and supervision, and safety information, are all ways we can work together to improve our safety performance. Nothing is more important than making sure that every day, every employee and contractor at ZG stays safe and sound.

- Our ultimate goal - an incident-free workplace

SAFE & SOUND PROGRAM

Safe & Sound is a safety and quality program with a primary goal to protect the health and wellbeing of employees and visitors at our offices and installations.

With a commitment to promoting continuous improvement toward our goal of zero incidents, ZG is taking further steps to ensure the safety of our employees and clients:

Safety training in all areas of our operations and equipping our leaders, staff and contractors with the information and tools

Comprehensive HSE Manual including an extensive mandatory contractor management program

Commitment to investigating incidents to identify root causes and learning from them.

FIRE MANAGEMENT

The Regulatory Reform (Fire Safety) Order 2005 was introduced to consolidate existing fire safety laws and places greater emphasis on prevention and reducing risk rather than cure. It placed responsibility for fire safety on the site management and we will ensure we identify hazards, train all relevant staff and make sure that all on-site staff are aware of evacuation procedures should an incident occur.

We will carry out a comprehensive fire assessment of the construction site including monitoring escape routes, fire alarms, fire points, signs and nominating fire marshals who will be responsible for directing personnel to designated safe zones in the event of fire.
